16 JULY

Les Gets, start town for the 2023 Tour de France

Les Gets, located between Lake Geneva and Mont Blanc, will host the start of a stage of the 2023 Tour de France for the first time in its history. Get ready for the ultimate cycling experience on Sunday 16 July, following the 15th stage of the Tour, which finishes in Saint Gervais. Having hosted the Critérium du Dauphiné three times, the resort is now excitedly preparing for this iconic event and is planning a

royal welcome for the big names in cycling and Tour enthusiasts.

The days leading up to the event will be devoted to cycling in all its forms, in collaboration with the neighbouring resort of Morzine which will host the "Annemasse/Morzine" Étape du Tour on the 9th of July as well as hosting a Tour stage finish on the 15th of July. Events, fan zone and other surprises will take place throughout the week of the 10th to the 16th of July.

7 TO 10 SEPTEMBER

MTB (XCO & DHI) World Cup

After the immense sporting success of the MTB World Championships last summer in Les Gets, the resort is preparing to welcome back the world's MTB elite for the World Cup's Cross-Country and Downhill events which will be held in Les Gets and the Portes du Soleil (Morzine and Châtel for the Marathon and Enduro the following weekend).

This event is particularly important for the Cross-Country participants who will be aiming to distinguish themselves in the run up to the Paris 2024 Olympic Games. For some years now, the French team has monopolized the Downhill event and will be keen to repeat the historic victories of the 2022 World Championships.

Road cycling

BASE CAMP IN LES GETS

Road Biking is a hugely popular sport in Les Gets. Cyclists come through the village following the Route des Grandes Alpes or, to challenge themselves, on the surrounding mythical cols of the Tour de France. Les Gets has again hosted the 6th June 2021 the Criterium du Dauphiné road race. The centre of the village has cycle lanes, GetsLib and electric bike recharging points, a wide range of cycling support services (hire shops, repair shops, road bike lessons...) and accommodation that specifically welcomes cyclists, easily recognisable by the «Escale velo» accreditation. Les Gets Tourisme was endorsed with the 'Accueil Vélo' bike-friendly accreditation in 2018. Ask Les Gets Tourisme for a copy of the Guide Cyclo Haut-Chablais detailing all the surrounding cycle routes.

Further information available from: www.lesgets.bike

Electric MTB

Electric MTB in Les Gets and the Portes du Soleil. No more steep-hill worries thanks to electrically assisted mountain bikes! This summer there are 40 tracks suitable for electric mountain bikes and over 350km of marked tracks in Les Gets and the whole of the Portes du Soleil. Electric MTBs enable everyone to enjoy a day's mountain biking with much less effort. 31 free Bosch re-charge points are spread across the area (2 of them are in Les Gets) so cyclists can re-charge their batteries en route. The Portes du Soleil is the first cross-border e-bike network and a free map listing all the circuits is available from the Tourist Office. Cross frontiers and explore the French and Swiss Chablais mountains.

The Perrières cheese dairy

The « Fruitière » is the place where milk is turned into cheese, where the fruit of the milk is collected, hence the word "Fruitière". Since we work with a short supply chain, we source our milk from several producers based in Verchaix, Les Gets and Avonnex and use it to make abundance, tomme, raclette and saveur des Gets cheeses, which we sell on our premises.

Every Wednesday at 10am there is a free guided tour to see the cheese being made.

Père Delavay's botanical garden

LAC DES ÉCOLES
AND GÉOPARC

Père Delavay, a major botanist who was born in Les Gets, was a missionary in

China 150 years ago. He sent more than 200 000 plants to the National Museum of Natural History in Paris, many of which bear his name.

The Jean-Marie Delavay association has published a book paying tribute to his role in identifying and documenting mountain plants from the Haute Savoie and Savoie departments, as well as his biography. They can be purchased from Les Gets Tourisme. To showcase the plants that

he discovered in China, within the natural setting of the lac des écoles, a botanical garden was set up in 2017, and is listed as a Conservatoire des Collections Végétales spécialisées (Special Plants Collection Conservatory). Some of these plants flourish in our gardens while many of us remain unaware that they come from so far away thanks to the efforts of a Les Gets native.

An introductory walk and an opportunity to enjoy an instructional, sensory journey with your family. You can take a tourist train excursion, based on the life of Père Delavay, every Monday. Ask for the «Become a botanist with Père Delavay» treasure hunt booklet at the Les Gets Tourisme.

ECO-TOURISM

The environment: a major concern for Les Gets

The Resort is committed! Les Gets resort is fully aware of the richness and fragility of the natural and human environment and is committed to protecting it. Together, we can help protect the mountain so play your part!

- Throw your rubbish in the bins provided.
- Village free from thrown-down cigarette butts and tobacco-free ski area in winter.
- Only take one map for your holiday.
- Respect the areas marked out to preserve the wildlife, and stay on the marked trails and mountain bike tracks.
- Once you arrive in Les Gets, you can leave your car in the car park and either walk or take the little train, bus or Getslib' (self-service electric bikes).

Eco-commitments

French ski resorts, which are on the front lines of global warming, are committed to helping protect the mountains with concrete measures aimed at combating climate change, reducing greenhouse gasses, improving water management and helping protect biodiversity and the natural landscapes:

<https://go.sagets.fr/Eco-engagements>

Thanks to its ecological surveys (flora, fauna, landscape), the Portes du Soleil biodiversity observatory has gained greater knowledge about the region, allowing it to make informed decisions about resort development while minimizing any environmental impact. For some years now, Les Gets resort has also been working to help preserve the region's wetlands.

Various measures have been implemented to protect the black grouse, one of the Alps' iconic bird species: special devices have been installed to improve the visibility of ski lift cables, wintering areas have been protected and other areas have been cleared to create an environment conducive to reproduction.

Systematic revegetation using specially adapted seeds subsequent to any work carried out.

A host of initiatives to protect our mountain environment.
